

UP!IMMERSIVE

Your immersive
virtual tour application

Immerse

the visitors at the heart
of your museum

Enrich

your visits with exclusive contents

Make your museum

accessible to persons with
reduced mobility

AN IMMERSIVE APPLICATION

Information bullets

and integration in the media gallery (images, texts, pdf, videos, ...)

On-site photo or video

report and creation of 5 or 10 immersive views

Script writing

and voice-over recording (French and English)

Customization

of the application according to your image (graphic design, logo, colors, ...)

Visualization with a cardboard

for general public release

Eye interactions

Insertion of your

virtual character

The visitors were totally immersed. They could discover this magical place, generally inaccessible to the public.

Jean-Jacques Lucion
Animation Center Manager
